EIGHTH ANNUAL REPORT ACCORDING TO OPERATIVE PROVISION 8 OF THE EUROPEAN UNION CODE OF CONDUCT ON ARMS EXPORTS

(2006/C 250/01)

INTRODUCTION

The European Code of Conduct on Arms Exports was adopted on 8 June 1998. The Code sets up eight criteria for the export of conventional arms and a denial notification procedure requiring Member States to consult on possible undercuts. Since its adoption the Code has contributed significantly to the harmonisation of national arms export control policies.

In the eighth year of operation of the European Code of Conduct significant progress has again been achieved with respect to the implementation of the Code. A number of important new developments have contributed to further strengthening and expanding the application of the Code. These developments reconfirm the Code's status as the most comprehensive international arms export control regime.

Bosnia and Herzegovina, Bulgaria, Canada, Croatia, the Former Yugoslav Republic of Macedonia, Iceland, Norway and Romania have officially aligned themselves with the criteria and principles of the Code.

In the ongoing effort to further improving the quality of the annual report this eighth report contains a separate section in Table A for tables showing exports to destinations under embargo. Table B contains two parts, the first shows the number of consultations initiated and received by Member States, and the second shows the number of consultations per destination country. A separate table (Table D) provides information on COARM-related outreach activities conducted by the EU or bilaterally by Member States during 2005.

I. REVIEW OF THE EIGHTH YEAR OF IMPLEMENTATION OF THE CODE

1. Review of the Code of Conduct

Discussions on the review of the Code were completed at technical level in June 2005 and the resulting draft Common Position constitutes a significantly updated and upgraded Code, deepening and widening its scope of application. However, at the time of writing, Council still awaits the appropriate juncture for adoption of the draft Common Position. Meanwhile, the Council Working Party on Conventional Arms Exports (COARM) has intensified its activities within and outside the framework of the User's Guide (cf. paragraph I.2 below) aiming at further

convergence of national procedures and policies based on the existing Code.

2. User's Guide

The Users Guide is an essential tool summarising agreed guidance for the implementation of operative provisions of the Code. Regularly updated by the Working Party on Conventional Arms Exports (COARM) it is intended for use primarily by export licensing officials, thus substantially contributing to the harmonisation efforts on a daily basis in a pragmatic way. It is available on the Security-related export controls webpage of the Council internet site (<http://www.consilium.europa.eu/export-controls>). Throughout 2005 and 2006 national notifications and bilateral consultations have taken place via the EU's electronic coreu system almost on a daily basis; information is circulated in a clear and timely manner, ensuring transparency of the arms exports policies of Member States vis-à-vis specific countries of final destination and specific end-users. Member States continue to update their national denial notification lists on a regular basis. These lists as well as the results of bilateral consultations are included in a central electronic EU database of denials. The database, which is managed by the EU Council Secretariat, is developing into a dynamic system reflecting Member States' arms exports control policies.

(a) Best practices in the area of end-user certificates:

In recognition of developments in other control regimes, the best practices in the area of end-user certificates in Chapter 2 of the User's Guide were brought into line with the consolidated indicative list of end-user assurances agreed by the Wassenaar Arrangement December 2005 Plenary meeting. With a view to further enhancing and expanding best practices in this area a survey among Member States on national requirements and policies for end-use certificates was initiated to identify possible common elements and/or approaches.

(b) Best practices for interpretation of criteria:

The purpose of these best practices is to achieve greater consistency among Member States in the application of the criteria of the EU Code of Conduct on Arms Exports by identifying factors to be considered when assessing export

licence applications. The best practices are for the use of export licensing officials and other officials in government departments and agencies whose expertise, *inter alia*, in regional, legal (e.g. human rights law, public international law), technical, development as well as security and military related questions should inform the decision-making process.

After adoption of best practice for the interpretation of criterion 8 of the Code of Conduct in September 2005, best practices for the interpretation of Criteria 2 ('human rights') and for Criteria 7 ('risk of diversion') were agreed by Member States in June 2006. A decision to initiate work on best practices for criteria 3 and 4 was made in June 2006.

3. Outreach

In accordance with the mechanism agreed in 2004 to improve the coordination of outreach activities undertaken by Member States in order to promote the principles and criteria of the Code among candidate countries and other third countries a number of measures were taken. This mechanism consists, amongst other things, of a database containing information on national activities with such countries which helps Member States to better prioritise and plan their efforts in this field and promote joint activities. In order to obtain a best possible overview of export control assistance by Member States and the EU the database was redesigned to provide an additional separate table to record information on WMD-related export control assistance so that information on all export control assistance to a particular target could be assembled drawing on the two tables.

(a) Letter campaign:

Following a first round of outreach correspondence in November 2004, in April 2006 COARM drafted and despatched letters (signed by the Personal Representative to the High Representative on Non-Proliferation) to the authorities of Albania, Belarus, Bosnia and Herzegovina, Croatia, the Former Yugoslav Republic of Macedonia, Moldova, Montenegro (letter despatched in July 2006 further to independence of Montenegro), Serbia, Switzerland, Turkey and Ukraine, informing them about recent activities and developments in the framework of COARM and reiterating the European Union's desire to enhance dialogue with interested countries with regard to the practical implementation of the Code. In that spirit a list of officials in Member States and the EU institutions as points of contact in case of specific questions arising in daily licensing procedures was also forwarded to the addressees. Several of the addressees of the April 2006 letter have already responded positively and provided names of points of contacts in their national administrations.

(b) Presidency seminar

On 4 May 2006 an outreach seminar for countries of the Western Balkans on the control of exports of conventional arms and dual use items, co-hosted by the Austrian Presidency and

SIPRI took place in Vienna. In addition, the Presidency and a number of Member States, as well as the Office of the Personal Representative on Non-Proliferation, have organised joint outreach seminars with some of the above countries, as well as with Georgia, Moldova, Turkey and Ukraine. Outreach Seminars with countries which are further afield (China, India, and the Republic of Korea) have also been held. Table D, attached to this report, contains details of seminars on the control of exports of conventional arms organised by the EU and Member States during 2005.

(c) Troika meetings

COARM Troika meetings have been held by the Austrian COARM Presidency with the United States, Canada, the Russian Federation, Ukraine and Norway in the framework of the political dialogue of the Common Foreign and Security Policy of the European Union. Fruitful discussions have taken place with these countries on arms export controls in general and the Code of Conduct in particular. During the meetings with Norway information on each side's denials has been shared in accordance with an agreement reached with Norway in November 2004 (Norway's annual report can be accessed via the internet address shown in Table C, annexed hereto). The Presidency informed interlocutors at these meetings about COARM activities since the last round of Troika meetings and of priorities of the Austrian COARM Presidency in the field of arms exports control. Furthermore matters of mutual interest were discussed such as arms exports compliance and control issues as well as membership applications for the Wassenaar Arrangement.

4. Updating of the Common Military List of the European Union

The Common Military List of the European Union has the status of a political commitment in the framework of the Common Foreign and Security Policy. On 27 February 2006 the Council adopted an updated version of the list which takes into account changes agreed in the Wassenaar Arrangement's Munitions List at the December 2005 Plenary meeting. This most recent version of the Common Military List of the European Union was published in Official Journal C 66 of 17 March 2006 and is available at the following internet address: <http://www.consilium.europa.eu/export-controls> (i.e. the Security-related export controls web-page of the Common Foreign and Security Policy section of the Council Internet).

5. An arms trade treaty

In order to pursue the commitments contained in the Council Conclusions of 3 October 2005 in which the Council endorsed the principle of an arms trade treaty, called for the start of a formal process at the United Nations as the only forum that could deliver a truly universal instrument at the earliest opportunity and expressed the belief that the European Union

should play an active role in this process, together with like-minded states and regional organisations from different parts of the world, COARM established a contact group in March 2005 as a sub-group involving Member State representatives from both COARM and CODUN.

II. STATE OF PLAY CONCERNING THE IMPLEMENTATION OF OTHER PRIORITY MEASURES IDENTIFIED IN THE SEVENTH ANNUAL REPORT

1. Harmonisation of national reports

Although differences in national reporting still remain, further steps have been taken to enhance the harmonisation of reporting procedures, and to achieve fully comparable statistical data, in particular regarding the value of actual arms exports. A survey among Member States was initiated to obtain a complete picture of Member States' methods in collecting and processing national data to serve as a basis for analysis and elaboration of common approaches to supplying authoritative data with a view to maximising the informative and comparative value of future summary tables. In that project, specific emphasis was placed on national policies regarding the collection of data related to actual exports. In this context Member States have agreed to hold an experts' meeting of licensing and customs officials to examine the mechanisms for improving the collection and compatibility of customs data, compare methodologies and explore best practices in that area. The aspect of breaking down figures by Military List Category should be specifically addressed in that exercise.

2. Arms brokering

COARM has agreed that the information sharing commitments set out in Common Position 2003/468/CFSP of 23 June 2003 on the control of arms brokering⁽¹⁾ should be implemented via the mechanism laid down in the Code of Conduct.

At the time of writing, 20 Member States and Acceding Countries have legislation in place which fully implements the Common Position. In accordance with Article 5 of the Common Position Member States have put in place separate arrangements (specific databases) for the exchange of information regarding national legislation and for the exchange of information regarding registered brokers (if applicable); the notification and consultation system operates on a mandatory basis only for those Member States whose legislation requires brokers to obtain written authorisation to act as brokers.

3. End-use controls and post-shipment verification

Agreeing that end-use controls and post-shipment verification were an important facet of responsible arms export policy COARM initiated an exchange of information on national

policies in that area. With the main emphasis based on controls in the pre-licensing phase Member States have nevertheless agreed to continue examining ways to enhance information-sharing, cooperation and assistance in the area of post-shipment verification.

4. Dialogue with the European Parliament

Pursuant to the agreement reached at the December 2005 COARM meeting that each Presidency should endeavour to meet the Security and Defence Committee of the European Parliament (SEDE) to brief the Committee on COARM activities, the Chairperson of COARM visited the European Parliament on 24 April for an exchange of views. The COARM Chairperson gave a summary presentation of COARM activities since the last COARM briefing of the Subcommittee and of priorities of the Austrian COARM Presidency in the field of arms exports control. The open exchange of views and very practical, concrete queries demonstrated the importance of and need for such transparent and confidence-building dialogue with the European Parliament on a biannual basis. In the same spirit the COARM Chairperson invited Mr Raoul Romeva, MEP, Rapporteur on the seventh annual report on the EU Code of Conduct on Arms Exports, to an informal meeting preceding the June COARM meeting.

III. PRIORITY GUIDELINES FOR COARM FOR THE NEAR FUTURE

Eight years of application of the Code of Conduct have shown that the fundamental elements of a common approach to the control of conventional arms exports by the Member States are well and truly in place. However, there is still work to be done in certain areas that have not been addressed in the past, or where further work is necessary to consolidate and build on the results achieved.

Member States have identified the following priority guidelines for the near future:

1. continuation of the process of earlier adoption and harmonisation of national reports in order to promote more homogeneous statistical data for inclusion in the European Union annual report, so as to produce clearer, more transparent summary tables with a special focus on data relating to the value of actual exports;
2. continuation of the process of harmonisation of national procedures and policies regarding end-user certificates and of examining ways to enhance cooperation in the area of end-use verification, including post shipment verification in countries of final destination or arms exports originating from EU Member States;

⁽¹⁾ OJ L 156, 25.6.2003, p. 79.

-
3. follow-up of the implementation of the Common Position on arms brokering, taking into account the different situations of the national legislation, and expanding the appropriate information-sharing mechanism;
 4. development of best practices for the interpretation of criteria, moving on from criterion 8, 2 and 7 to criteria 3 and 4;
 5. continuation of activities on the promotion of an arms trade treaty, *inter alia*, through the ATT contact group;
 6. continuation of the policy of promoting the principles and criteria of the Code of Conduct among third countries,
- specifically those countries that have aligned themselves with the Code of Conduct, and assisting in its practical implementation through, *inter alia*, the provision of practical and technical assistance to ensure the harmonisation of policies on arms export control;
7. further development of dialogue with the European Parliament;
 8. continued close cooperation and consultation with interested third parties, including international NGOs and the defence industry.

ANNEX

Information on conventional arms exports and implementation of the Code of Conduct by the Member States over the period 1 January to 31 December 2005

Statistics are compiled differently by each Member State: no uniform standard is used. Consequently, owing to current procedures in the area of arms export controls or data protection legislation, not all countries have been able to submit the same information.

The attached tables contain the following information:

A. TABLES SETTING OUT EXPORTS AND LICENCE REFUSALS PER DESTINATION, PER REGION AND WORLDWIDE

- figures are broken down per Member State, and where possible per EU Common Military List category ⁽¹⁾, where (a) = number of licences issued, (b) = value of licences issued in Euros, (c) = value of arms exports in Euros (if available) ⁽²⁾ ⁽³⁾
- total EU licence refusals to each destination, region and world wide are provided, broken down by EU Common Military List category, (d) = number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) = criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets).

B.II TABLE SHOWING TOTAL NUMBER OF CONSULTATIONS FOR EACH DESTINATION CONCERNED

C. TABLE SHOWING INTERNET ADDRESSES FOR NATIONAL REPORTS ON ARMS EXPORTS

D. TABLE OF OUTREACH ACTIVITIES CARRIED OUT BY THE EU AND MEMBER STATES IN 2005

⁽¹⁾ See page 6 for brief descriptions of Military List categories

⁽²⁾ To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows deleted.

⁽³⁾ NB

- (i) Concerning Austrian exports: With regard to items covered by the EU Common Military List, Austrian law distinguishes between 'war material' (as stipulated in the Austrian War Material Act and Ordinance) and equipment 'other than war material'. As to '(c) value of actual exports', figures may be inaccurate as data on value of actual exports is based on information provided by the customs authorities as well as by the holders of licences. With regard to equipment of the Common Military list not listed as war material, this information is available to the competent authorities only after expiration or full consumption of the individual export licence. All licences and exports to Afghanistan, Sudan, Bosnia and Herzegovina as well as Iraq were for purposes laid down in the relevant EU Common Positions or for other United Nations or humanitarian purposes.
- (ii) Concerning Belgium:
 - Exports to the Democratic Republic of Congo comprised 82 trucks for the Integrated Congolese National Army;
 - Exports to Liberia comprised supplies to the United Nations Mission in Liberia (UNMIL);
 - Exports to Serbia and Montenegro comprised supplies to the United Nations Interim Administration Mission in Kosovo (UNMIK);
 - Exports to Iraq comprised supplies to the US Corps of Engineers, Bagdad.
- (iii) Concerning Finland: All licences and exports in category ML 13 to Afghanistan, Democratic Republic of Congo, Ethiopia, Haiti, Kenya, Liberia, Somalia, Sudan, Uganda and Yemen are for United Nations purposes.
- (iv) Concerning Germany:
 1. Germany is unable to deliver data on actual exports by EU ML category; it is able to report the total value country by country of actual exports for 'war weapons' according to the German War Weapons list, which represents a sub-set of the military list.
 2. All licences issued to Democratic Republic of Congo, Liberia, Sierra Leone and Sudan are for United Nations Missions. All licences issued to Cote d'Ivoire are for purposes of the United Nations or of the German Embassy.
- (v) Concerning Ireland: All licences issued in category ML 4 to Tajikistan, Uruguay and Guinea-Bissau are for humanitarian demining purposes.
- (vi) Concerning Italy: Licences issued to NATO countries and to US and NATO bases in Italy are recorded collectively under exports to Italy.
- (vii) Concerning Lithuania:
 - one licence was delivered to the Government of Rwanda for defence use,
 - three licences were delivered to the Government of Afghanistan,
 - one licence was delivered to the embassy of an allied country in Saudi Arabia for safeguard use.
- (viii) Concerning the Netherlands:
 1. As values of global licences cannot always be attributed to individual military list categories or individual countries, quoted total values may be higher than the sum of the values per ML category or per destination.
 2. Although much care has been given to the collection of the data on actual exports, the actual export figures for 2005 may be higher than the values quoted in this report.
- (ix) Concerning Poland: The licence for the export of items to Nepal (classified ML 1) was issued before the coup d'état. After the coup, commercial contacts by Polish companies with Nepal relating to strategically relevant items were stopped.
- (x) Concerning Slovenia: four licences were approved for equipment (small arms and light weapons) to be delivered to the Iraqi authorities. The equipment, delivered in a single shipment, was donated (free of charge) to the Iraqi authorities.

Brief descriptions of EU Common Military List categories

(See OJ C 127 of 25 May 2005 for the full EU Common Military List)

- ML1 Smooth-bore weapons with a calibre of less than 20 mm, other arms and automatic weapons with a calibre of 12,7 mm (calibre 0,50 inches) or less and accessories, and specially designed components therefore.
- ML2 Smooth-bore weapons with a calibre of 20 mm or more, other weapons or armament with a calibre greater than 12,7 mm (calibre 0,50 inches), projectors and accessories, and specially designed components therefor.
- ML3 Ammunition and fuze setting devices, and specially designed components therefor.
- ML4 Bombs, torpedoes, rockets, missiles, other explosive devices and charges and related equipment and accessories, specially designed for military use, and specially designed components therefor.
- ML5 Fire control, and related alerting and warning equipment, and related systems, test and alignment and countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor.
- ML6 Ground vehicles and components.
- ML7 Chemical or biological toxic agents, 'tear gases', radioactive materials, related equipment, components, materials and 'technology'.
- ML8 'Energetic materials', and related substances.
- ML9 Vessels of war, special naval equipment and accessories, and components therefor, specially designed for military use.
- ML10 'Aircraft', unmanned airborne vehicles, aero-engines and 'aircraft' equipment, related equipment and components, specially designed or modified for military use.
- ML11 Electronic equipment, not controlled elsewhere on the EU Common Military List, specially designed for military use and specially designed components therefor.
- ML12 High velocity kinetic energy weapon systems and related equipment, and specially designed components therefor.
- ML13 Armoured or protective equipment and constructions and components.
- ML14 Specialised equipment for military training or for simulating military scenarios, simulators specially designed for training in the use of any firearm or weapon controlled by ML1 or ML2, and specially designed components and accessories therefor.
- ML15 Imaging or countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor.
- ML16 Forgings, castings and other unfinished products the use of which in a controlled product is identifiable by material composition, geometry or function, and which are specially designed for any products controlled by ML1 to ML4, ML6, ML9, ML10, ML12 or ML19.
- ML17 Miscellaneous equipment, materials and libraries, and specially designed components therefor.
- ML18 Equipment for the production of products referred to in the EU Common Military List.
- ML19 Directed energy weapon systems (DEW), related or countermeasure equipment and test models, and specially designed components therefor.
- ML20 Cryogenic and 'superconductive' equipment, and specially designed components and accessories therefor.
- ML21 'Software' specially designed or modified for the 'development', 'production' 'use' of equipment or materials controlled by the EU Common Military List.
- ML22 'Technology' for the 'development', 'production' or 'use' of items controlled in the EU Common Military List, other than that 'technology' controlled in ML7.

NB:

It is important to note that row (c) of Table A is the total of the actual exports by those countries which submitted these data. Denmark, Lithuania, and the United Kingdom could not supply these data; therefore row (c) of the EU total does not reflect total EU actual exports. row (b) of the EU total only reflects the value of licences granted by all EU Member States.

For presentational reasons, zero values have been omitted and where convenient empty rows and lines deleted.

COARM OUTREACH 2005

Target or host country and date	Member State/ Acceding Country providing assistance or out- reach	Description of assistance/outreach
Albania, Bosnia and Herzegovina, Serbia and Montenegro, FYROM, May 2005	Romania	Follow-up Conference organised with US financial support aimed to update officials from countries in Western Balkans with recent developments in Romania (a new arms export controls law, developments in secondary legislation for dual use transfers a.s.o.), to further explain the advantages of being a state participant to relevant export controls regime in conducting adequate decision making process and presentations on issues such as catch all clause, ITT, brokering activities, transit and transshipment a.s.o
China, May 2005 September 2005	Germany	Presentation of European and German export control system (Legal framework for exports of arms and dual-use goods, procedures, inter-agency cooperation, enforcement, industry outreach) within the framework of an WA outreach seminar
China, October 2005	Poland	The Polish-Chinese consultations on arms export control took place in Warsaw on 20 October 2005. A whole spectrum of subjects related to arms export control systems and policies was discussed. Representatives from the Polish institutions engaged in the licensing process informed Chinese partners about various stages of arms export control process. The Chinese visitors were offered an overview of the Polish export control legislation along with the main aspects of the CoC and the Wassenaar Arrangement system. The Chinese counterparts were particularly interested in the role of customs services in the Polish system, implementation of EU and WA regulations and control lists, and some aspects of embargo policy. details of bilateral agreement on mutual recognition of end-user certificates between Poland and China were also discussed.
China, October 2005	Italy	Consultations in Rome with high rank officers from Ministry of Foreign Trade and Economic Cooperation and from Chinese MFA, led by Mrs. Zhou Ruojun, Deputy Director General of the Department of Science and Technology of the Ministry. Aim was to explain to Italian counterparts Chinese regulations on export controls of dual use goods and technologies, and the Chinese regulation concerning end-use certificates and its implementation. The delegation wished to be informed in detail about Italian regulations. Meeting quite fruitful. China and Italy went through their national systems in detail, giving some concrete examples as starting points for the discussion. Reference to arms' exports controls. Chinese referred to the two non proliferation export control regimes to which China does not yet belong, i.e. MTCR and AG, and to WA. They expressed great interest in all of them stating that control lists issued within those regimes have been adopted by China (adoption of the WA dual use list in progress).
Croatia, October 2005	United Kingdom	Meeting for countries in the region (Albania, Bosnia and Herzegovina, Croatia, Serbia and Montenegro) on developments within the EU on export controls for conventional arms
FYROM, February 2005	Romania	Participated in a US/LATA/organised legal/regulatory workshop aimed to present basic principles for conducting export controls system, focusing on political and legal issues
Georgia, Moldova, February 2005	Latvia	Seminar on the Export Control Policy and Export Control Licensing in Latvia were attended by participants from Moldova and Georgia. The aim of the Seminar — to discuss export control issues such as export control policy, legislation and licensing procedures, implementation of Code of Conduct, and to develop cooperation between the implementing authorities

Korea, March 2005	Germany	Benchmarking on Korean and German export control procedures

Target or host country and date	Member State/ Acceding Country providing assistance or out- reach	Description of assistance/outreach
Moldova, Georgia, February 2005	Latvia	Seminar on the Export Control Policy and Export Control Licensing in Latvia were attended by participants from Moldova and Georgia. The aim of the Seminar — to discuss export control issues such as export control policy, legislation and licensing procedures, implementation of Code of Conduct, and to develop cooperation between the implementing authorities
Moldova, October 2005	Poland	For a period of one month Poland has hosted representatives from the Moldavian MFA to share Polish experiences in integration with the EU. Poland presented its security policy, including the area of export control. The Moldavian partners were briefed on Polish legislation adjustments to EU standards and the key role of the CoC in our export control policy. Poland expressed its willingness to support development of the Moldavian export control system.
Serbia and Montenegro, March 2005	United Kingdom	The United Kingdom hosted officials from the Serbia and Montenegro Ministry for International Economic Relations, MoD, MFA and Serbian and Montenegrin Customs Officials for three days of export control outreach. Serbia and Montenegro's new export control legislation came into force at the time of the visit and the focus of outreach was implementation and licensing procedures, enforcement and application of the Code of Conduct (which is required under Serbia and Montenegro's new legislation). Discussions also covered international export control regimes.
Turkey, November 2005	United Kingdom	Two day visit by officials from Turkish MFA, Customs and representatives of Industry to London (DTI, Customs and FCO) to learn about UK export control regime and implementation in context of Turkey's EU accession negotiations and commitment to align policies and positions with those of EU. Delegation included representatives of the Under Secretariat of Foreign Trade and the Under Secretariat of Customs, the Istanbul Minerals and Metals Exporters Association (a semi-government organisation), the Turkish Embassy, and Siemens. The delegation met with the DTI, the FCO, the MoD and HM Revenue and Customs. Discussions covered a wide range of practical questions on the operation of UK export-licensing regime and customs matters. The UK also covered wider issues, including membership issues in the WA, though given the technical nature of the Turkish delegation, these issues were not discussed in detail. The delegation explained that the main focus of their work was dual use goods. The Istanbul Minerals and Metals Export
Ukraine, October 2005	Bulgaria	Consultations in Kiev 2-4 October 2005 to discuss national arms and Dual Use goods export control policies and practices. Bulgaria briefed about EU accession negotiations and implementation of EU regulations into national laws. Ukraine informed on its national export control legislation and efforts to improve it, including the inclusion of the principles of the EU CoC.
Ukraine, November 2005	Poland	Poland briefed officials from the Ukrainian MFA on the Polish security policy, including export control policy in the context of ESDP. Poland presented the principles governing the Polish export control policy, legislation in force, as well as licensing and enforcement procedures. Poland stressed aspects especially related to the Polish preparation to accession to the EU and underlined responsibilities and commitments coming from EU membership, e.g. implementation of the CoC.
Ukraine December 2005	United Kingdom	EU represented by UK, Poland, Sweden and Netherlands. SIPRI, Saferworld and Ukraine NGOs also present. Official Ukrainian representation led by MFA, other relevant authorities present.
