## NINTH ANNUAL REPORT ACCORDING TO OPERATIVE PROVISION 8 OF THE EUROPEAN UNION CODE OF CONDUCT ON ARMS EXPORTS

(2007/C 253/01)

## INTRODUCTION

The European Code of Conduct on Arms Exports was adopted on 8 June 1998. The Code sets up eight criteria for the export of conventional arms and a denial notification procedure requiring Member States to consult on possible undercuts. Since its adoption the Code has contributed significantly to the harmonisation of national arms export control policies.

In the ninth year of operation of the European Code of Conduct, numerous developments have further strengthened the implementation of the Code and contributed to expanding its application. These achievements have reconfirmed the Code's status as the most comprehensive international arms export control regime.

Bosnia and Herzegovina, Canada, Croatia, the Former Yugoslav Republic of Macedonia, Iceland and Norway have officially aligned themselves with the criteria and principles of the Code.

In the ongoing effort to further improve the quality of the annual report this ninth report includes a table (Table A.II) showing details of Member States' exports to UN-mandated or international missions and a table (Table C) giving references to national legislation implementing the Common Position on Brokering (Common Position 2003/468/CFSP of 23 June 2003)<sup>(1)</sup>. For those Member States which have not yet fully implemented the Common Position, Table C provides information on the state of play. Moreover, and in view of the fact that Military List references are very broad, Member States had the opportunity to provide in the table containing national website addresses, (Table E) brief and concise indications of the type of information that can be found on their national export controls web pages, including in particular detailed descriptions of the items exported.

## I. REVIEW OF THE NINTH YEAR OF IMPLEMENTATION OF THE CODE

## 1. Enlargement of the Union

The accession of Bulgaria and Romania to the European Union on 1 January 2007 saw the criteria and procedures of the Code of Conduct, notably the notification and consultation mechanism, become fully applicable to them. Bulgaria and Romania, as Acceding Countries, had begun attending meetings of the Working Party on Conventional Arms Exports (COARM) as from May 2005. Their accession will contribute to further increasing the convergence of policies and practices on arms exports applicable in the 27 Member States. Both Bulgaria and Romania have submitted figures for their arms sales in 2006, demonstrating that they are already in a position to fully comply with the requirements of the relevant operative provision of the Code and the corresponding section in the User's Guide (referred to in paragraph I.3 below). This data has not been included in the ninth annual report for reason of consistency as accession took effect on 1 January 2007.

## 2. Review of the Code of Conduct

Discussions on the review of the Code were completed at technical level in June 2005. The resulting draft Common Position constitutes a significantly updated and upgraded Code, deepening and widening its scope of application. At the time of publication of this year's report, however, Council still awaits the appropriate juncture for adoption of the draft Common Position. Meanwhile, the Working Party on Conventional Arms Exports (COARM) has continued its activities within and outside of the framework of the User's Guide (cf. paragraph I.3 below) aiming

at further convergence of national procedures and policies based on the existing Code.

Chapter 2 of the User's Guide a new Section 3 on post-shipment verification, explaining the role of such measures and inviting voluntary information-sharing.

### 3. User's Guide

The User's Guide is an essential tool summarising agreed guidance for the implementation of operative provisions of the Code. Regularly updated by COARM it is intended for use primarily by export licensing officials, thus substantially contributing to the harmonisation efforts on a daily basis and in a pragmatic way. It is available on the Security-related export controls web page of the Council Internet website (<http://www.consilium.europa.eu/export-controls>). The User's Guide contains sections, *inter alia*, on the following issues:

#### (d) Arms brokering

Member States have agreed to exchange information in the area of denials of applications to register as brokers (if applicable). Therefore a new section on denials of brokering registrations has been included in the User's Guide and a new harmonized notification form added.

#### (a) Denial notifications and consultations

Throughout 2006 and 2007 national notifications and bilateral consultations have taken place via the EU's electronic *coreu* system on an almost daily basis; information is circulated in a clear and timely manner, ensuring transparency on the arms export policies of Member States vis-à-vis specific countries of final destination and specific end-users. Member States continue to update their national denial notification lists on a regular basis. These lists as well as the results of bilateral consultations are included in a central electronic EU database of denials. The database, which is managed by the EU Council Secretariat, is developing into a dynamic system reflecting Member States' arms exports control policies.

### 4. Outreach

Coordinated outreach activities by Member States and the Presidency in order to promote the principles and criteria of the Code among third countries, (in accordance with the mechanism agreed in 2004) continued throughout 2006 (see Table D, annexed hereto). *Inter alia*, the following events took place:

#### (b) Best practices for interpretation of criteria

The purpose of best practices for interpretation of the Code of Conduct criteria is to achieve greater consistency among Member States in the application of the criteria of the EU Code of Conduct on Arms Exports by identifying factors to be considered when assessing export license applications. The best practices are for the use of export licensing officials and other officials in government departments and agencies whose expertise *inter alia* in regional, legal (e.g. human rights law, public international law), technical, development as well as security and military related questions should inform the decision-making process.

#### (a) Presidency seminars

The Finnish presidency (in cooperation with the Government of Bosnia and Herzegovina and the Stockholm International Peace Research Institute) organized an outreach event for Western Balkan countries, Romania and Bulgaria which took place in Sarajevo on 31 October 2006 and provided practical guidance on the Code of Conduct, the interpretation of the criteria and the consultation mechanism. The German presidency held an outreach seminar for Western Balkan countries and Moldova on 2 to 4 May 2007 in Zagreb, which was organised in cooperation with RACVIAC, the Regional Arms Control and Verification Implementation Assistance Centre, and the core of which consisted of case studies focussing on practical aspects of licensing. Western Balkan States informed about the status of the Code in their national legislation and further steps they intended to take in this regard.

As already reported in the eighth annual report best practices for the interpretation of criteria 8, 2 and 7 of the Code of Conduct were adopted in September 2005 and June 2006, respectively. Best practices for criteria 3 and 4 were agreed by Member States in December 2006 and for criteria 1, 5 and 6 in June 2007. Thus, the elaboration of best practices for the interpretation of all eight criteria of the Code of Conduct and their inclusion in the User's Guide has been successfully completed.

#### (b) Troika meetings

The Finnish and the German presidencies each held COARM Troika meetings with Canada, Norway, the Russian Federation, Ukraine and the United States in the framework of the political dialogue of the Common Foreign and Security Policy of the European Union. Fruitful discussions took place with these countries on arms export controls in general and the Code of Conduct in particular. The Presidency informed interlocutors at these meetings about COARM activities since the last round of Troika meetings and of priorities of the Finnish and German COARM presidencies in the field of arms export control. Furthermore, matters of mutual interest were discussed such as arms exports, compliance and control issues as well as membership applications for the Wassenaar Arrangement.

#### (c) End-user controls/Post-shipment verification

Recognizing that post-shipment control can be an important supplementary tool to strengthen the effectiveness of national arms export control, Member States agreed to include in

During the Troika meetings with Norway information on each side's denials has been shared in accordance with an agreement reached with Norway in November 2004. (Norway's annual

report can be accessed via the Internet address shown in the annexed table containing national website addresses.)

## 5. **Updating of the Common Military List of the European Union**

The Common Military List of the European Union has the status of a political commitment in the framework of the Common Foreign and Security Policy. On 19 March 2007 the Council adopted an updated version of the list which takes into account changes in the Wassenaar Arrangement's Munitions List that were agreed at the 2006 Plenary meeting. This most recent version of the Common Military List of the European Union was published in Official Journal L 88 of 29 March 2007 and is available at the following Internet address: <http://www.consilium.europa.eu/export-controls> (i.e. the security-related export controls web page of the Common Foreign and Security Policy section of the Council website).

## 6. **Arms Trade Treaty**

Member States have closely followed the developments related to the Arms Trade Treaty and they strongly support the process. In March 2005 COARM established a contact group involving Member States' representatives from both COARM and the Working Party on Global Disarmament and Arms Control (CODUN). The Council endorsed the principle of an Arms Trade Treaty in its Conclusions of 3 October 2005. Implementing the UN General Assembly Resolution 61/89, the Secretary General sought the views of member states on the feasibility, scope and draft parameters of an arms trade treaty and is establishing a Group of Governmental Experts to examine these matters commencing in 2008. All EU Member States submitted responses on their views and welcomed the start of practical work towards the elaboration of an Arms Trade Treaty. In addition, a common EU reply was submitted. Many Member States have actively promoted the idea of a legally binding Arms Trade Treaty bilaterally and in various multilateral fora in order to maintain the current momentum of this initiative and to further strengthen the increasing international support for it. Council Conclusions calling for a legally binding international Arms Trade Treaty were adopted on 11 December 2006 and on 18 June 2007.

## II. **STATE OF PLAY CONCERNING THE IMPLEMENTATION OF OTHER PRIORITY MEASURES IDENTIFIED IN THE EIGHT ANNUAL REPORT**

### 1. **Harmonisation of national reports**

Although differences in national reporting still remain, further steps have been taken to enhance the harmonisation of reporting procedures and to achieve fully comparable statistical data, in particular regarding the value of actual arms exports. The Finnish Presidency organised a seminar on 'How to improve the Annual Report' on 16 November 2006 in Prague. Member States shared information, discussed the challenges with regard to data collection and agreed on the need to move towards further harmonisation and achieve earlier publication of the report.

### 2. **Arms brokering**

The Working Party has agreed that the information sharing commitments set out in Common Position 2003/468/CFSP of 23 June 2003 on the control of arms brokering should be implemented via the mechanism laid down in the Code of Conduct. In accordance with Article 5 of the Common Position, Member States have put in place separate arrangements (specific databases) for the exchange of information regarding national legislation and for the exchange of information regarding registered brokers, if applicable. The notification and consultation system operates on a mandatory basis only for those Member States whose legislation requires brokers to obtain written authorisation to act as brokers. Detailed information on national legislation implementing the Common Position on Brokering or, for those Member States which have not yet fully implemented the Common Position, providing information on the state of play, is provided in the annexed Table C.

### 3. **Intra-Community transfers**

The Commission initiative concerning facilitation of Intra-Community Transfers of defence-related products is of major concern for COARM, noting the need to remain aware that military items cannot be considered in the same way as most commercial items and taking into account the problem of possible re-exports to third countries. It is expected that the Commission will issue a proposal on this topic by November 2007.

### 4. **Dialogue with the European Parliament**

Pursuant to the agreement reached at the December 2005 COARM meeting that each Presidency should endeavour to meet the Security and Defence Committee of the European Parliament to brief the Committee on COARM activities, the COARM Chairperson met with the Security and Defence Sub-Committee in Brussels on 12 September 2006 and 1 March 2007 respectively. The open exchange of views and very practical, concrete queries in both meetings demonstrated the importance of and need for such transparent and confidence-building dialogue with the European Parliament on a biannual basis. Furthermore the COARM Chairperson invited Mr Raül Romeva, MEP, Rapporteur on the annual report on the EU Code of Conduct on Arms Exports, to informal meetings with COARM in December 2006 and January 2007.

## III. **PRIORITY GUIDELINES FOR COARM FOR THE NEAR FUTURE**

Nine years of application of the Code of Conduct have shown that the fundamental elements of a common approach to the control of conventional arms exports by Member States are well and truly in place. However, there is still work to be done in certain areas that have not been addressed in the past, or where

further work is necessary to consolidate and build on the results achieved.

Member States have identified the following priority guidelines for the near future:

1. continuation of the process of earlier adoption and harmonisation of national reports in order to promote more homogeneous statistical data for inclusion in the European Union annual report, to produce clearer, more transparent summary tables;
  2. continuation of activities on the promotion of an Arms Trade Treaty, *inter alia* through the ATT contact group and active support of the Group of Governmental Experts;
  3. follow-up to the implementation of the Common Position on arms brokering, taking into account different national legislation and expanding the appropriate information-sharing mechanism;
  4. continuation of the policy of promoting the principles and criteria of the Code of Conduct among third countries, specifically those countries that have aligned themselves with the Code of Conduct, and assisting in its practical implementation through, *inter alia*, the provision of practical and technical assistance to ensure the harmonisation of policies on arms export control;
  5. continuation of discussions regarding the Commission initiative concerning Intra-Community Transfers of defence-related products;
  6. further development of a dialogue with the European Parliament;
  7. continued close cooperation and consultation with interested third parties, including international NGOs and the defence industry.

## ANNEX

**Information on conventional arms exports and implementation of the Code of Conduct by the Member States over the period 1 January to 31 December 2006**

The attached tables contain the following information:

A.I. TABLES SETTING OUT EXPORTS AND LICENCE REFUSALS PER DESTINATION, PER REGION AND WORLDWIDE

- figures are broken down per Member State and, where possible, per EU Common Military List category <sup>(1)</sup>, where (a) = number of licences issued, (b) = value of licences issued in euros, (c) = value of arms exports in euros (if available); <sup>(2)</sup> <sup>(3)</sup>
- total EU licence refusals to each destination, region and worldwide are provided, broken down by EU Common Military List category, (d) = number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) = criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets).

NB: statistics are compiled differently by each Member State: no uniform standard is used. Consequently, owing to current procedures in the area of arms export controls or data protection legislation, not all countries have been able to submit the same information.

C. INFORMATION ON NATIONAL LEGISLATION IMPLEMENTING THE COMMON POSITION ON BROKERING OR, FOR THOSE MEMBER STATES WHICH HAVE NOT YET FULLY IMPLEMENTED THE COMMON POSITION, PROVIDING INFORMATION ON THE STATE OF PLAY

D. TABLE OF OUTREACH ACTIVITIES CARRIED OUT BY THE EU AND MEMBER STATES IN 2006

E. TABLE SHOWING INTERNET ADDRESSES FOR NATIONAL REPORTS ON ARMS EXPORTS

<sup>(1)</sup> See pages 3 to 4 below for brief descriptions of Military List categories.

<sup>(2)</sup> To make the table more readable, nil values and/or the mention 'not available' are omitted and empty rows deleted.

<sup>(3)</sup> NB

- (i) Concerning Austrian exports: with regard to items covered by the EU Common Military List, the Austrian law distinguishes between 'war material' (as stipulated in the Austrian War Material Act and Regulation) and 'equipment on the Common Military List not listed as war material'. As for category (c) value of actual exports by Military List Category, figures may be inaccurate as data on value of actual exports is based on information provided by the customs authorities as well as by the holders of licences. With regard to equipment of the Common Military list not listed as war material, this information is available to the competent authorities only after expiration or full utilisation of the individual export licence.
- (ii) Concerning Finland: all licences and exports in category ML 13 to Democratic Republic of Congo, Lebanon, Panama and Uganda are for United Nations purposes.
- (iii) Concerning Germany: Germany is unable to deliver data on actual exports by EU ML category. It is able to report the total value country by country of actual exports for 'war weapons' according to the German War Weapons list, which represents a sub-set of the military list.
- (iv) Concerning Ireland: all licences issued in category ML 4 to Tajikistan and Laos are for humanitarian de-mining purposes.
- (v) Concerning Italy: out of the total number of licences issued, 3 licences, for the amount of EUR 1 565 457, were issued in favour of NATO Maintenance and Supply agency (NAMSA) (the final destination of the items being a NATO country).
- (vi) Concerning Luxembourg: figures do not include smooth-bore weapons used for hunting or sporting purposes, nor accessories or ammunition therefor.
- (vii) Concerning the Netherlands:
  1. as values of global licences cannot always be attributed to individual military list categories or individual countries, quoted total values may be higher than the sum of the values per ML category or per destination;
  2. the figures on actual exports reported by the Netherlands are based on information provided by exporters in 2006 and may reflect exports based on a licence issued in a previous year. Although much care has been given to the collection of the data on actual exports, the actual export figures for 2006 may be higher than the values quoted in this report.

**Brief descriptions of EU Common Military List categories**

*(See OJ C 66 of 17 March 2006 for the full EU Common Military List)*

- ML1 Smooth-bore weapons with a calibre of less than 20 mm, other arms and automatic weapons with a calibre of 12,7 mm (calibre 0,50 inches) or less and accessories and specially designed components therefor.
- ML2 Smooth-bore weapons with a calibre of 20 mm or more, other weapons or armament with a calibre greater than 12,7 mm (calibre 0,50 inches), projectors and accessories and specially designed components therefor.
- ML3 Ammunition and fuze setting devices, and specially designed components therefor.
- ML4 Bombs, torpedoes, rockets, missiles, other explosive devices and charges and related equipment and accessories, specially designed for military use, and specially designed components therefor.
- ML5 Fire control, and related alerting and warning equipment, and related systems, test and alignment and countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor.
- ML6 Ground vehicles and components.
- ML7 Chemical or biological toxic agents, 'tear gases', radioactive materials, related equipment, components, materials and 'technology'.
- ML8 'Energetic materials' and related substances.
- ML9 Vessels of war, special naval equipment and accessories, and components therefor, specially designed for military use.
- ML10 'Aircraft', unmanned airborne vehicles, aero-engines and 'aircraft' equipment, related equipment and components, specially designed or modified for military use.
- ML11 Electronic equipment, not controlled elsewhere on the EU Common Military List, specially designed for military use and specially designed components therefor.
- ML12 High velocity kinetic energy weapon systems and related equipment, and specially designed components therefor.
- ML13 Armoured or protective equipment and constructions and components.
- ML14 Specialised equipment for military training or for simulating military scenarios, simulators specially designed for training in the use of any firearm or weapon controlled by ML1 or ML2, and specially designed components and accessories therefor.
- ML15 Imaging or countermeasure equipment, specially designed for military use, and specially designed components and accessories therefor.
- ML16 Forgings, castings and other unfinished products the use of which in a controlled product is identifiable by material composition, geometry or function, and which are specially designed for any products controlled by ML1 to ML4, ML6, ML9, ML10, ML12 or ML19.
- ML17 Miscellaneous equipment, materials and libraries, and specially designed components therefor.
- ML18 Equipment for the production of products referred to in the EU Common Military List.
- ML19 Directed energy weapon systems (DEW), related or countermeasure equipment and test models, and specially designed components therefor.
- ML20 Cryogenic and 'superconductive' equipment, and specially designed components and accessories therefor.
- ML21 'Software' specially designed or modified for the 'development', 'production' or 'use' of equipment or materials controlled by the EU Common Military List.
- ML22 'Technology' for the 'development', 'production' or 'use' of items controlled in the EU Common Military List, other than 'technology' controlled in ML7.

It is important to note that row (c) of Table A is the total of the actual exports by those countries which submitted these data. Denmark and the United Kingdom could not supply these data; therefore row (c) of the EU total does not reflect total EU actual exports. Row (b) of the EU total reflects the value of licences granted by all EU Member States.

For presentational reasons, zero values have been omitted and where convenient empty rows and lines deleted.

**EU AND MEMBER STATES' OUTREACH ACTIVITIES TO PROMOTE PRINCIPLES AND CRITERIA OF THE CODE OF CONDUCT AMONG THIRD COUNTRIES DURING 2006**

Target or host country and date	Member State/acceding country providing assistance	Description of outreach
Bosnia and Herzegovina, June 2006	Poland	Bilateral consultations with Bosnia and Herzegovina on arms export control which took place in Warsaw on June 5 and 6, 2006. The Bosnia and Herzegovina delegation was headed by the Assistant Minister of the Ministry for International Trade and Economic Relations — Mr Dragisa Mekic. Representatives of the Polish institutions engaged in the licensing process presented the functioning of the Polish export control process with practical examples of inter-agency co-operation. The visitors were briefed on the Polish export control system and legislation as well as on political considerations which are taken into account when issuing a licence. The key role of the EU Code of Conduct as well as of the Wassenaar Arrangement resolutions and provisions was emphasised. The Bosnia and Herzegovina delegation was given the opportunity to exchange views with experts from the Polish institutions involved in licensing process, e.g. the Ministry of Economy (as licensing body) and Ministry of Foreign Affairs, Ministry of Finance, Ministry of Internal Affairs and Administration and the Internal Security Agency (as advisory authorities).
Croatia, November 2006	United Kingdom	Visit to the UK by Croatian Governmental delegation (MFA, Ministry of Economy, Customs, MoD) and representatives of Government-owned defence equipment company, the Alan Agency, for export control seminar (20-22 November 2006) organised by UNDP and FCO. The objective was to assist Croatian authorities in strengthening their export controls. The seminar gave an overview of the UK's export licensing system and facilitating the exchange of ideas and information.
Serbia and Montenegro, May 2006	Poland	Bilateral consultations with Serbia and Montenegro on arms export control, Warsaw, 25-26 May 2006. The delegation of Serbia and Montenegro was headed by the Assistant Minister of the Ministry for International Economic Relations. Representatives of the Polish institutions engaged in the licensing process informed about various stages and aspects of the Polish export control process stressing the importance of inter-agency co-operation. The Polish side provided a current overview of the Polish export control system and legislation and presented political considerations that are taken into account in the licensing process. Special attention was given to obligations associated with membership of the EU and the Wassenaar Arrangement. The delegation from Serbia and Montenegro exchanged views with experts from the Polish institutions involved in the licensing process e.g. the Ministry of Economy (as licensing body) and Ministry of Foreign Affairs, Ministry of Finance, Ministry of Internal Affairs and Administration and the Internal Security Agency (as advisory authorities).
Western Balkans countries, 4 May 2006 (Albania, Bosnia and Herzegovina, Croatia, Serbia and Montenegro, FYROM)	Austria	The Austrian Presidency organised a seminar in Vienna on implementation of the Code of Conduct. More than 45 experts from different licensing authorities, ministries of foreign affairs, EU-institutions as well as the Stability Pact for South Eastern Europe and SEESAC participated. The seminar consisted of four parts: status quo in the Western Balkans; Implementing arms export controls in the EU; implementing the EU dual-use <i>acquis</i> ; implementing the EU <i>acquis</i> as a non-Member State: challenges and opportunities.
Western Balkans countries, 22-23 May 2006 (Albania, Bosnia and Herzegovina, Croatia, Serbia and Montenegro, FYROM)	Bulgaria and Hungary	Export control seminar (conventional arms and dual use) on industry outreach, continuing implementation of Joint Action Plan of Hungary and Bulgaria.

Target or host country and date	Member State/acceding country providing assistance	Description of outreach
Western Balkans countries, 31 October 2006 (Albania, Bosnia and Herzegovina, Croatia, Serbia, Montenegro, FYROM)	Presidency (Finland)	Seminar in Sarajevo 'Cooperating to meet common arms export control standards' for countries of the Western Balkans on implementation of the EU CoC to provide advice and guidance on CoC, interpretation of criteria and the consultation mechanism. More than 30 experts from different licensing authorities from the West Balkan States, Bulgaria and Romania, the Presidency and the incoming Presidency as well as the Council Secretariat and SIPRI participated in the meeting. Representatives of the OSCE, the EU Customs and Fiscal Assistance Office (CAFAO), and the US government's Export Control and Border Security (EXBS) programme, participated as observers. After introductory presentation by Council Secretariat on CoC criteria and the revised User's Guide, participants were divided into working groups, which engaged in practical simulation exercises on licence applications. Positions on the case studies were then presented and widely debated further at the plenary.

The Manual describes the main goals of export controls, identifies the legal framework and provides information on licence application procedures, on the types of licences available and on what forms to use and what additional information to provide when applying for an export or transit licence.  The English versions of the annual national reports on arms exports can be found at <a href="http://www.minez.nl/content.jsp?objectid=147887">http://www.minez.nl/content.jsp? objectid=147887</a> . These national reports include statistics on licences granted per country of destination as well as specific information on licences denied.  Furthermore, through its website <a href="http://www.exportcontrole.ez.nl">http://www.exportcontrole.ez.nl</a> , the Netherlands provides — in Dutch — monthly overviews with details of each licence issued for the export, transit or brokering of military equipment and technology. Information provided includes a description of the goods, the value and type of licence involved, and the countries of origin, destination and final destination. All notifications of transit shipments of military equipment and monthly overviews of licences issued for the export of dual-use goods are published on this website.
